Re: Application # 10/593,889

This is applicant Seiji Kashioka. I appreciate your effort to read claims as well as specification written by non-mother tongue inventor.

In the ACTION dated Oct. 20th, you told the specification should be revised. Now, question is if it is necessary to show changed places in the substitute specification. Changes in Claim should be indicated by underline (for addition) and strike through lines (for deletion). Is this the way I indicate changed places in specification? Or should I submit a substitute specification without indication of changes?

My FAX number is 909-594-9078, and e-mail address is kashioka@oak-hill.com.

Sincerely

Seiji Kashioka
